HEATING / PROCESS EQUIPMENT

UPC MARATHON

Industrial control systems for the heat treat industry

SECO/VACUUM

The North American Vacuum Furnace Company

Industry leading vacuum furnaces and technologies

Standard ovens and furnaces for industry

Custom oven solutions and systems for industry

Standard & custom atmosphere heat treat furnaces for manufacturing

Plasma (Ion) nitriding systems

Hot stamping solutions and automation for high temperature applications

FLUID COOLING SYSTEMS, LLC.

Process cooling systems. Single source for design/build including: pump stations, packaged chillers, cooling tower, air cooled HX

Packaged ultra low temperature chiller systems

PhoenixTM
Phoenix Temperature Measurement

Temperature profiling systems for heat treat/processing

PARTS CLEANING

Baron-Blakeslee

Complete solvent vapor degreasing / cleaning & material handling solutions

Standard and Custom Aqueous parts washing solutions

Custom finishing solutions

UNIQUE TECHNOLOGIES

building the future

Electronic coil tensioning systems

Meter/Mix/Dispense systems

FIXTURING / BASKETS / TUBES / BELTING

Standard and Custom heat resistant, high alloy castings

Standard and custom woven wire mesh belts for continuous processes

Silicon carbide radiant tubes and assemblies

Standard and custom wire\baskets for heat treating

Hi-TEMP PRODUCTS

New / Replacement Heating Systems
